PROPOSED BY  
HUNGARIAN GYPSY  
MISSIONS INTERNATIONAL

*Yet this I call to mind  
and therefore  
I have hope.*

*Lamentation 3:21*

My name is **Mihály Kolompár**, I was born in Kiskunmajsa. I grew up in difficult circumstances, we starved a lot. I got married to a beautiful woman in 1980 we have five children, three boys and two girls. First my wife started going to church and she called me to visit it with her. God touched me and I received him into my heart in 2006. This love is what I was missing for my entire life. God has changed me, now I can love anyone and everyone and i serve the Lord!

## COMMUNITY

I am a member of the Pentecostal Gypsy Church of Kiskunmajsa.

I share my testimony there, I organise different events for the church members, I also mentor people and I take disabled people to church by my car.

My pastor is Pál Péter, our church is blessed. We pray every evening for different topics. Sadly 60% of the youth of Kiskunmajsa is addicted to different kinds of drugs and alcohol.

It is a great challenge to share the Gospel with them! My community has undergone a great change as I see many people coming out of drug addiction.

## CTL programme

The training I'm participating in is very exciting, and I can learn many things that will make me more mature and stronger. During this period of time, I have already changed a lot in my character. I have grown a lot and have a better understanding of God's word. These teachings renew me in my faith completely.

My expectation from the training and from myself is to be a warrior of God. I am taught by very good teachers and I have great hope when I finish the CTL training I will be ready to serve my people with full credibility.

Now that I have been learning for a while I see that God has designed it to me. Since I have been participating in the programme, my children also turned to Jesus and all of them want to study here and go to a Bible school so they can deepen their knowledge.
